Nylon webbing

Scope of application: belts, velcro, webbing, plastic hoses, computer wiring, etc.

## Product Parameter

<b>Equipment name</b>	Left and right rotating perforated tape cutter		
<b>Machine size</b>	650X450X550mm	<b>interfaces</b>	touchscreens
<b>blade width</b>	105mm	<b>weights</b>	35kg
<b>cutter</b>	High-speed steel electric heating tube heating, single electric heating tube		
<b>electrical machinery</b>	The cutter is an AC asynchronous motor with step feed.		
<b>perforation</b>	Hole punching for cylinder control, easy to replace, can be customised for cooling holes, hot holes, single holes, up to 5 holes, 5 holes can be punched synchronously at the same time.		
<b>input voltage</b>	220V 50HZ	<b>pneumatic</b>	0.6kp
<b>Rotary Overfeed Width</b>	Maximum width of 70mm at 45 degrees		
<b>functionality</b>	Multi-angle rotary cutting, cold and hot cutting, rotary slant cutting and punching can be completed at one time; Perforation mould can be freely replaced, hole size can be selected to customise.		

●●●

## Product Details

Good quality, look at the details

●●●

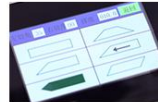

## control panel

Adopting micro-computer operation panel makes the operation of the machine easier and more convenient. Chinese and English languages can be switched.

●●●

## knife blade

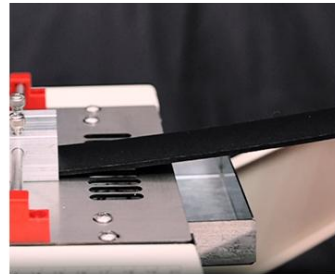

Sharp, abrasion-resistant blades for longer wear cycles and greater durability. Rotary cutter with 6 cutting shapes to choose from.

●●●

## waste tray

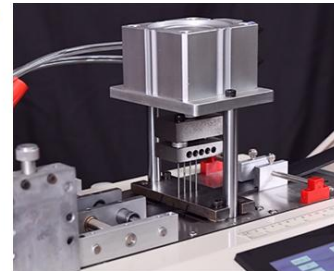

Waste storage at the bottom of the perforated area. Convenient for post-hygienic cleaning

●●●

## Cylinder controlled punching

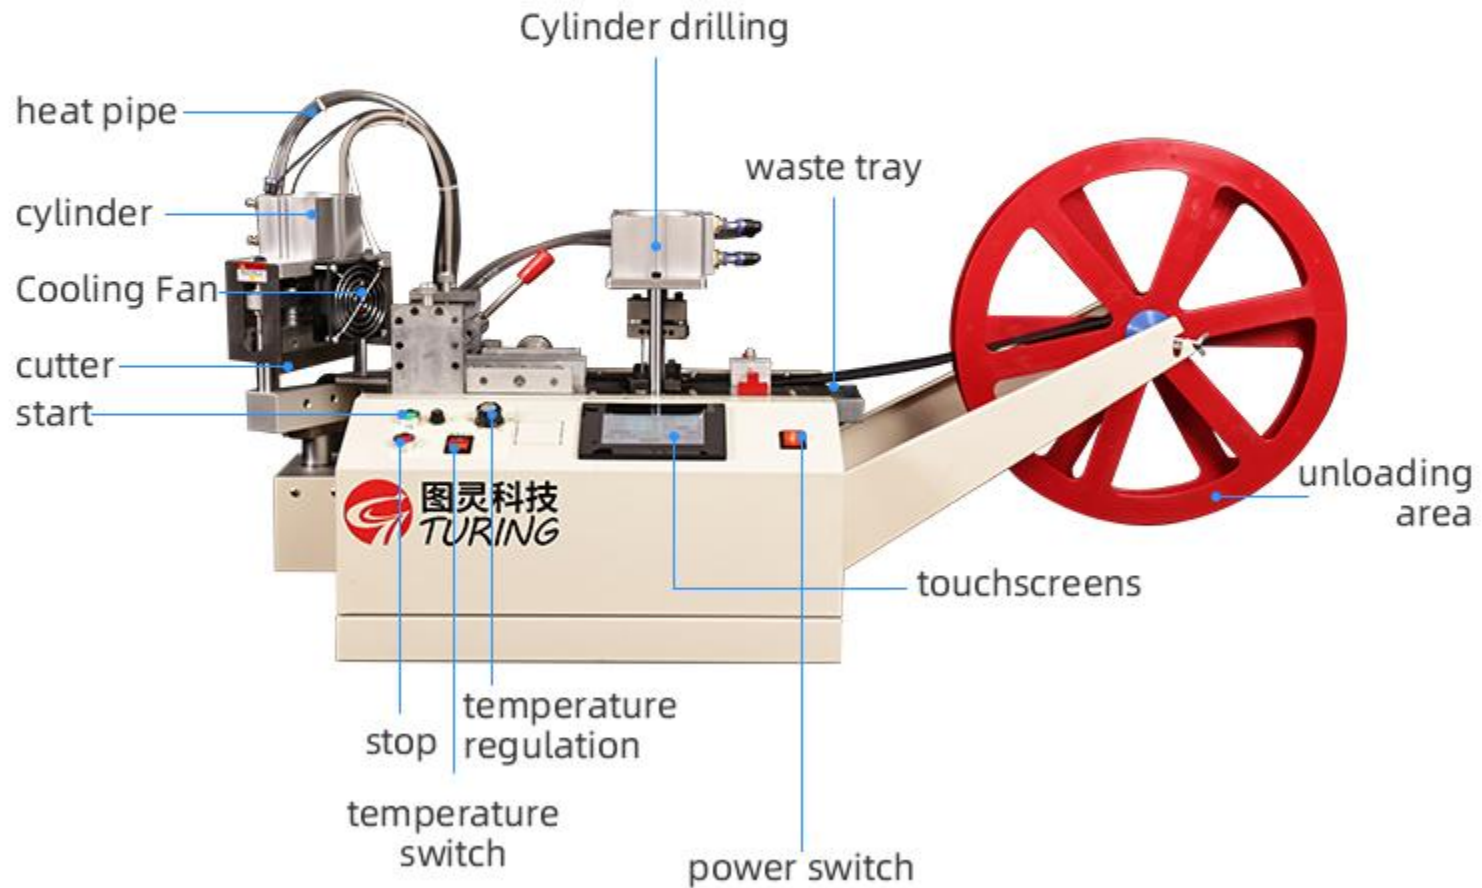

The number of holes and the distance between holes can be set, simple and easy to operate.
