

# 400 square Automatic rotary knife wire stripping machine

TR-8400X | Wire Diameter Range: 30-400mm<sup>2</sup>

**Flat incision | High precision | No indentation**

- ✓ Rotary cutter head
- ✓ Servo drive system
- ✓ High-quality high-speed steel tools

**Production efficiency: 500-1000pcs/h (depending on the wire)**

Single- or multi-layer processing of wires such as cable wires, sheathing wires, new energy wires, etc.

# Product Parameter

<b>Equipment name</b>	TR-8400X Automatic Rotary Knife Wire Stripping Machine		
<b>power supply</b>	AC220V 50HZ	<b>power</b>	12KW
<b>Catheter Diameter</b>	Φ15-50mm	<b>Stripping range</b>	30-400mm <sup>2</sup>
<b>function</b>	Automatic cutting and stripping of wires and cables		
<b>Wire Type</b>	Cable wire, sheathed wire, new energy wire, etc.		
<b>Cutting length</b>	10-99999.99mm		
<b>Cutting tool materials</b>	High quality imported high speed steel		
<b>Cutting tolerances</b>	Within 0.002L (L=cutting length)		
<b>Strip length</b>	Front stripping: 10-1000mm (wire head) Back stripping: 10-300mm (wire tail)		
<b>Display mode</b>	10 inch true colour touch screen		
<b>production efficiency</b>	500-1000pcs/h (according to the length and size of the wire)		
<b>drive method</b>	Wire feed: each group independent servo drive Tool holder: double servo plus double silk rod		

## Product Details

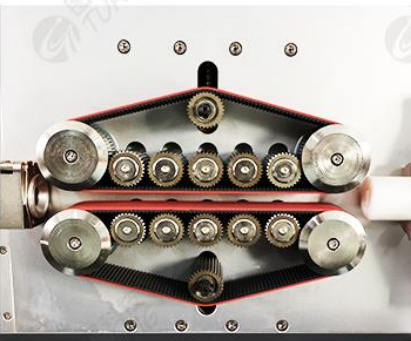

Good quality, look at the details

● ● ●

### HD Touch Screen

Human-machine interface, can be switched between Chinese and English, easy to understand the operation.

● ● ●

### Belt feed

Adopt belt type feeding system, prevent wire from slipping, no indentation, stable feeding and accurate length.

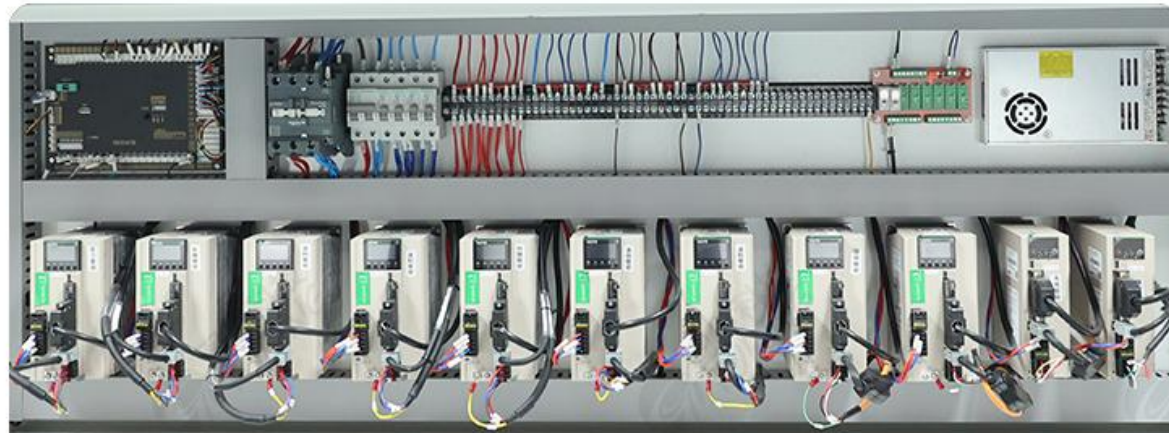

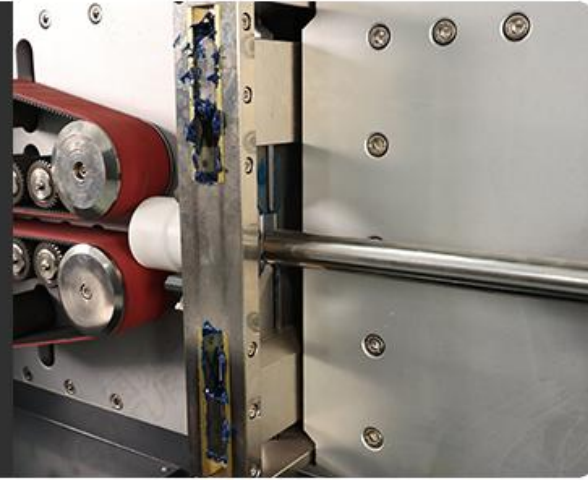

● ● ●

### rotary knife

Utilising centrifugal force principle, screw control, no harm to the wire core, ensure processing accuracy.

## Mobile tool holder

Made of alloy material, the blade is sharp and the cut is smooth and beautiful; two sets of blades are responsible for cutting and peeling respectively, which guarantees the service life of the blades.

## circuit box

The machine adopts PLC control system, 14 **HCFA servo** motor drives, high precision, long life, stable operation
